

Nadofaragene Firadenovec and Oportuzumab Monatox for BCG-**Unresponsive, Non-Muscle Invasive Bladder Cancer**

Draft Questions for Deliberation and Voting at the November 20, 2020 Public Meeting These questions are intended for the deliberation of the Midwest CEPAC voting body at the public meeting.

Clinical Evidence

Pat or r

	t population for questions 1-5: Adults -CIS with high grade Ta/T1)	s with BCG-unre	esponsive, high-risk NMIBC (CIS ± Ta/T1		
1.	Is the evidence adequate to demonstrate that the net health benefit of nadofaragene firadenovec (Adstiladrin®, FerGene) is superior to that provided by best supportive care?				
		Yes	No		
2.	Is the evidence adequate to demons monatox (Vicineum™, Sesen Bio) is s				
		Yes	No		
3.	Is the evidence adequate to distinguish the net health benefit of nadofaragene firadenove (Adstiladrin®, FerGene) from oportuzumab monatox (Vicineum™, Sesen Bio)?				
		Yes	No		
	a. If the answer to question 3 is	s yes, which the	erapy has the greater net health benefit?		
	a) Nadofaragene firade	enovec	b) Oportuzumab monatox		
4.	. Is the evidence adequate to demonstrate that the net health benefit of nadofaragene firadenovec (Adstiladrin®, FerGene) is superior to that provided by gemcitabine with or without docetaxel ?				
		Yes	No		

5.	Is the evidence adequate to demonstrate that the net health benefit of oportuzumab monatox (Vicineum [™] , Sesen Bio) is superior to that provided by gemcitabine with or without docetaxel ?					
		Yes	No			
Patient Ta/T1	t population for questions 6-7: ℓ	Adults with BCG	-unresponsive, higl	h-risk NMIBC with CIS ±		
6.	Is the evidence adequate to demonstrate that the net health benefit of nadofaragene firadenovec (Adstiladrin®, FerGene) is superior to that provided by systemic pembrolizumab (Keytruda®, Merck)?					
		Yes	No			
7.	Is the evidence adequate to demonstrate that the net health benefit of oportuzumab monatox (Vicineum [™] , Sesen Bio) is superior to that provided by systemic pembrolizumab (Keytruda®, Merck)?					
		Yes	No			

Potential Other Benefits and Contextual Considerations

With ICER's 2020 value assessment framework update, ICER now uses a three-item Likert scale voting format.

- 1. Please vote 1, 2, or 3 on the following potential other benefits and contextual considerations as they relate to **nadofaragene firadenovec** (Adstiladrin®, FerGene). Refer to the table below.
- 2. Please vote 1, 2, or 3 on the following potential other benefits and contextual considerations as they relate to **oportuzumab monatox** (Vicineum™, Sesen Bio). Refer to the table below.

Likert Scale of Potential Other Benefits and Contextual Considerations						
1 (Suggests Lower Value)	2 (Intermediate)	3 (Suggests Higher Value)				
Uncertainty or overly favorable model		Uncertainty or overly unfavorable model

Long-Term Value for Money

- 8. Given the available evidence on comparative effectiveness and incremental cost-effectiveness, and considering other benefits, disadvantages, and contextual considerations, what is the long-term value for money of treatment at current pricing with **nadofaragene firadenovec** (Adstiladrin®, FerGene) versus **best supportive care**?
 - a. Low long-term value for money
 - b. Intermediate long-term value for money
 - c. High long-term value for money
- 9. Given the available evidence on comparative effectiveness and incremental cost-effectiveness, and considering other benefits, disadvantages, and contextual considerations, what is the long-term value for money of treatment at current pricing with **oportuzumab** monatox (Vicineum™, Sesen Bio) versus **best supportive care**?
 - a. Low long-term value for money
 - b. Intermediate long-term value for money
 - c. High long-term value for money
