

Suzetrigine for Acute Pain

Stakeholder List

ICER receives input on its reviews from multiple stakeholders, including patients and their families, patient advocacy organizations, clinicians, clinical societies, insurers, and drugmakers. We invite the public to submit recommendations for stakeholders in any of these categories.

The following is a list of organizations from which ICER has requested input, as well as those that have provided unsolicited public comments during the review. Some organizations on the list may appear only because they were invited to provide input, and it should not be assumed that they have responded to ICER's outreach or agreed to participate in this review.

- National Pain Advocacy Center
- Patient Mind
- Shatterproof
- US Pain Foundation
- Vertex Pharmaceuticals

We spoke with several additional experts in the preparation of this report. Of them, the following individuals have agreed to be identified as having spoken with ICER:

- **Sergey Motov, MD, FAAEM**, Emergency Medicine Physician, Faculty member and Research Director at Maimonides Medical Center.
- **Kara Segna, MD**, Anesthesiologist and Faculty member in the department of Anesthesiology and Critical Care Medicine at Johns Hopkins, Chair for Acute Pain Medicine Interest Group, American Academy of Pain Medicine.

To protect patient confidentiality, ICER does not routinely name individual patients or care partners who provided us with input and feedback.

None of these individuals or organizations is responsible for the final content of ICER's report, and it should not be assumed that they support any part of the report, which is solely the work of the ICER team and its affiliated researchers.

For a complete list of key dates and opportunities for input on this project, please visit [ICER's website](#).
