

## Suzetrigine for Acute Pain

### Stakeholder List

ICER receives input on its reviews from multiple stakeholders, including patients and their families, patient advocacy organizations, clinicians, clinical societies, insurers, and drugmakers. We invite the public to submit recommendations for stakeholders in any of these categories.

The following is a list of organizations from which ICER has requested input, as well as those that have provided unsolicited public comments during the review. Some organizations on the list may appear only because they were invited to provide input, and it should not be assumed that they have responded to ICER's outreach or agreed to participate in this review.

- National Pain Advocacy Center
- Patient Mind
- Shatterproof
- US Pain Foundation
- Vertex Pharmaceuticals
- Voices for Non-Opioid Choices

We spoke with several additional experts in the preparation of this report. Of them, the following individuals have agreed to be identified as having spoken with ICER:

- **Deborah Dowell, MD, MPH**, Chief Medical Officer for the Division of Overdose Prevention at the U.S Centers for Disease Control and Prevention (CDC) Injury Center.
- **Benjamin Friedman, MD**, Professor of Emergency Medicine, Vice Chair for clinical investigation and attending physician at Montefiore Medical Center.
- **James Khan, MD, MSc, FRCPC**, Assistant Professor, Clinician-Scientist, Department of Anesthesia and Pain Medicine, University of Toronto.
- **Sergey Motov, MD, FAAEM**, Emergency Medicine Physician, Faculty member and Research Director at Maimonides Medical Center.
- **Travis Rieder, PhD**, Associate Research Professor at the Berman Institute of Bioethics, Johns Hopkins University.

- **Kara Segna, MD**, Anesthesiologist and Faculty member in the department of Anesthesiology and Critical Care Medicine at Johns Hopkins, Chair for Acute Pain Medicine Interest Group, American Academy of Pain Medicine.
- **Kit Simpson, MPH, DrPH**, Professor, Department of Health Care Leadership and Management in the College of Health Professions and Public Health Science in the College of Medicine at the Medical University of South Carolina.

To protect patient confidentiality, ICER does not routinely name individual patients or care partners who provided us with input and feedback.

None of these individuals or organizations is responsible for the final content of ICER's report, and it should not be assumed that they support any part of the report, which is solely the work of the ICER team and its affiliated researchers.

For a complete list of key dates and opportunities for input on this project, please visit [ICER's website](#).
